In this case you have to (i) inform Olympus immediately about the replacement and (ii) to erase the Software on the replaced computer or network. Under no circumstances you are permitted to use the Software simultaneously in another computer or local area network and the one on which the Software has been installed by the Service Engineer.
- 7.3. Unless otherwise provided in this License Agreement or the Documentation or Integration Manuals (if applicable), you may not copy, create, transfer, sell, distribute, rent or lease any derivative work of the Software Product without Olympus' prior written approval.
- 7.4. Use of the Software outside the scope of your Entitlement is unauthorized and shall constitute a material breach of this Agreement and void the warranty and/or support obligations of which you may otherwise be entitled.
- 8.3. **Rectification of Quality Defects:** Olympus shall rectify Quality Defects at its own discretion by either repairing or replacing the defective Software or respective parts thereof. Olympus may replace defective Software with newer versions of the same, provided that (i) the replacement is at least equal in performance and functionality to the Software to be replaced and (ii) the replacement does not require undue adjustments on your side, (e.g. the use of a different operating system or hardware with higher performance). For the avoidance of doubt, additional training of personnel required due to minor changes in the structure of the Software, or the user guidance shall not be construed as undue adjustment in the meaning of the aforesaid sentence. If a Quality Defect cannot be rectified by repairing or replacing the Software, Olympus may provide you with workarounds for the respective defect. To the extent reasonable, such workarounds shall be considered a rectification of the Quality Defect.
- 8.4. **Rectification of Legal Defects:** You shall notify Olympus without undue delay of any Infringement Claim giving reasonable details. Olympus will promptly assume full control over any court- or out-of-court defense activities of you against such an infringement claim or alleged infringement and shall indemnify you of all reasonable expenses and costs, including reasonable attorney's fees and damages finally awarded against you. You will provide, upon Olympus' written request and at the expense of Olympus, reasonable assistance to support Olympus in the settlement of and/or defense against the infringement claim.
- 8.5. If (i) a final and binding court decision confirms the infringement of Third-Party's intellectual property rights through the use of the Software by you in the licensed country, or (ii) a preliminary injunction is properly served upon you, or (iii) Olympus concedes that the Software infringes Third-Party's intellectual property right, Olympus will promptly
 - 8.5.1. procure an irrevocable release for the Licensee, free of cost to the Licensee, from such alleged Infringement Claim(s) for past use; and
 - 8.5.2. for continued use of the Software Product, subject to the Infringement Claim(s), (i) procure for you a license for future use the Software Product free of charge for the Licensee, and if unable to procure such right or (ii) modify or replace the Software so as to make it non-infringing to the satisfaction of such Third-Party while retaining their form, fit and functionality.
- 8.6. Your rights pursuant to mandatory statutory law to lower payment, withdraw from the Agreement and to claim damages or futile expenses in case of a Defect remain unaffected.
- 8.7. Subject to sentence 2 of this Section 8.7, all warranty claims shall become statute-barred within one (1) year upon the date of installation of the Software. Claims for damages based on a wilful or gross negligent breach of duty, an injury to life, body or health or claims based on a fraudulent concealment of defects, a breach of a guarantee in the meaning of Section 444 BGB (German Civil Code) given by Olympus or claims based on the German Product Liability Act shall be statute-barred as set forth by mandatory statutory law.

- 9.1. Olympus' entire liability arising out of or in connection with the delivery, use or performance of the Software shall be limited to the amount of the license fee paid by you. This limitation of liability does not apply in cases of bodily injury, impairment of health, death, infringement of Cardinal Duties and liability arising out of the Product Liability Directive 85/374/EEC or any corresponding national laws.

- 9.2. If you fail to make adequate (at least daily), reasonable and common to the current state-of-the-art backup of your data in the interest of data security, or – in case of suspected Software errors – fail to take reasonable and adequate security measures, you have to accept contributory negligence regarding resulting damages.
- 9.3. Olympus' liability pursuant to Section 9.1 sentence 4 and in case of intent shall be time-barred within the statutory period. In all other cases the Olympus' liability shall become statute-barred within one (1) year upon the date of installation of the Software.

- 10.3. If you are legally compelled to disclose any of the Confidential Information, then, prior to such disclosure, you will (i) immediately notify Olympus prior to such disclosure to allow Olympus an opportunity to contest the disclosure, (ii) assert the privileged and confidential nature of the Confidential Information, and (iii) cooperate fully with Olympus in protecting against any such disclosure and/or obtaining a protective order narrowing the scope of such disclosure and/or use of the Confidential Information. In the event such protection is not obtained, you shall disclose the Confidential Information only to the extent necessary to comply with the applicable legal requirements.
- 10.4. The foregoing obligations shall survive any termination or expiration of this Agreement.

11. Technical Information.

You agree that Olympus may collect or process technical and related information arising from Your use of the Software which may include but may not be limited to internet protocol address, hardware identification, operating system, application software, peripheral hardware, and non-personally identifiable Software usage statistics to facilitate the provisioning of Updates, Support, invoicing or online services.

12. Compliance with Laws; Export Control.

- 12.1. Each Party shall comply with all laws applicable to the actions contemplated by this Agreement. You acknowledge that the Software is of EU origin and may be subject to the U.S. Export Administration Regulations, the European export regulations and to the export control laws of the applicable territory, and that diversion contrary to applicable export control laws is prohibited.
- 12.2. You represent that (i) you are not, and are not acting on behalf of, (a) any person who is a citizen, national, or resident of, or who is controlled by the government of any country to which

Hytrack**OLYMPUS END-USER LICENSE AGREEMENT (EULA)**

the United States or European Union has prohibited export transactions; or (b) any person or entity listed on the U.S. Treasury Department lists of Specially Designated Nationals, Foreign Sanctions Evaders, Sectoral Sanctions Identifications, or Palestinian Legislative Council; or the U.S. Commerce Department Denied Persons List, Entity List, or Unverified List; or the U.S. State Department Nonproliferation Sanctions, or Debarred List; and (ii) you will not permit the Software, directly, or indirectly, to be used for any purposes prohibited by law, including any prohibited development, design, manufacture or production of missiles or nuclear, chemical or biological weapons.

- 12.3. You agree that the Software may not be exported/re-exported to Cuba, Iran, North Korea, Sudan and Syria. - 13.1. This License Agreement shall become effective as of the date of the first installation of the Software by you.
- 13.2. Without prejudice to any other rights or remedies, Olympus may terminate this License Agreement or withdraw from it if you fail to comply with the terms and conditions of this License Agreement.
- 13.3. In case of a termination of your right of use in the Software Product, in particular in case of a withdrawal from this Agreement, you shall return all tangible storage media and delete all copies of the Software Product, unless you are obliged to retain copies of the Software pursuant to mandatory statutory law, and shall confirm such deletion in writing to the Licensor.

14. Governing Law, Injunctive Relief.

- 14.1. This EULA shall be governed by and construed in accordance with the laws of Germany, excluding the United Nations Convention on the International Sales of Goods (CISG). The courts of Hamburg shall have exclusive jurisdiction over any dispute arising out of or in connection with this EULA.
- 14.2. 15. Miscellaneous.

- 15.1. Olympus reserves the right to assign any and all rights and obligations here under to a Third-Party.

If you use these features, you must comply with applicable law, including providing appropriate notices to users of your applications together with Microsoft's privacy statement. Our privacy statement is located at <https://go.microsoft.com/fwlink/?LinkID=824704>. You can learn more about data collection and its use from the software documentation and our privacy statement. Your use of the software operates as your consent to these practices.

b. Processing of Personal Data.

To the extent Microsoft is a processor or subprocessor of personal data in connection with the software, Microsoft makes the commitments in the European Union General Data Protection Regulation Terms of the Online Services Terms to all customers effective May 25, 2018, at <https://docs.microsoft.com/en-us/legal/gdpr>.

5. SCOPE OF LICENSE.

The software is licensed, not sold. This agreement only gives you some rights to use the software. Microsoft reserves all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement. In doing so, you must comply with any technical limitations in the software that only allow you to use it in certain ways. You may not

- work around any technical limitations in the software.
- reverse engineer, decompile or disassemble the software, or otherwise attempt to derive the source code for the software, except and to the extent required by third party licensing terms governing use of certain open-source components that may be included in the software;
- remove, minimize, block or modify any notices of Microsoft or its suppliers in the software.
- use the software in any way that is against the law; or
- share, publish, rent or lease the software, provide the software as a stand-alone offering for others to use, or transfer the software or this agreement to any third party.

6. EXPORT RESTRICTIONS.

You must comply with all domestic and international export laws and regulations that apply to the software, which include restrictions on destinations, end users, and end use. For further information on export restrictions, visit www.microsoft.com/exporting.

7. SUPPORT SERVICES.

Because this software is “as is,” we may not provide support services for it.

8. ENTIRE AGREEMENT.

This agreement, and the terms for supplements, updates, Internet-based services and support services that you use, are the entire agreement for the software and support services.

9. APPLICABLE LAW.

If you acquired the software in the United States, Washington law applies to interpretation of and claims for breach of this agreement, and the laws of the state where you live apply to all other claims. If you acquired the software in any other country, its laws apply.

10. CONSUMER RIGHTS; REGIONAL VARIATIONS.

This agreement describes certain legal rights. You may have other rights, including consumer rights, under the laws of your state or country. Separate and apart from your relationship with Microsoft, you may also have rights with respect to the party from which you acquired the software. This agreement does not change those other rights if the laws of your state or country do not permit it to do so. For example, if you acquired the software in one of the below regions, or mandatory country law applies, then the following provisions apply to you:

a) Australia.

You have statutory guarantees under the Australian Consumer Law and nothing in this agreement is intended to affect those rights.

b) Canada.

If you acquired this software in Canada, you may stop receiving updates by turning off the automatic update feature, disconnecting your device from the Internet (if and when you re-connect to the Internet, however, the software will resume checking for and installing updates), or uninstalling the software. The product documentation, if any, may also specify how to turn off updates for your specific device or software.

c) Germany and Austria.

(i) Warranty.

The software will perform substantially as described in any Microsoft materials that accompany it. However, Microsoft gives no contractual guarantee in relation to the software.

(ii) Limitation of Liability.

In case of intentional conduct, gross negligence, claims based on the Product Liability Act, as well as in case of death or personal or physical injury, Microsoft is liable according to the statutory law.

Subject to the foregoing clause (ii), Microsoft will only be liable for slight negligence if Microsoft is in breach of such material contractual obligations, the fulfillment of which facilitate the due performance of this agreement, the breach of which would endanger the purpose of this agreement and the compliance with which a party may constantly trust in (so-called “cardinal obligations”). In other cases of slight negligence, Microsoft will not be liable for slight negligence

11. DISCLAIMER OF WARRANTY. THE SOFTWARE IS LICENSED “AS-IS.” YOU BEAR THE RISK OF USING IT. MICROSOFT GIVES NO EXPRESS WARRANTIES, GUARANTEES OR CONDITIONS. TO THE EXTENT PERMITTED UNDER YOUR LOCAL LAWS, MICROSOFT EXCLUDES THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

12. LIMITATION ON AND EXCLUSION OF REMEDIES AND DAMAGES. YOU CAN RECOVER FROM MICROSOFT AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO U.S. \$5.00. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES.

This limitation applies to (a) anything related to the software, services, content (including code) on third party Internet sites, or third-party applications; and (b) claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to

the extent permitted by applicable law.

It also applies even if Microsoft knew or should have known about the possibility of the damages. The above limitation or exclusion may not apply to you because your state or country may not allow the exclusion or limitation of incidental, consequential or other damages.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this documents.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and

subsequently incorporated within the Work.

2. Grant of Copyright License.

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License.

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution.

You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions.

Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks.

This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty.

Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability.

In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability.

While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.
